

WEEK 4 ASSIGNMENT

JavaScript Fundamentals – Part 2

Duration	1 Week (7 Days)
Marks	100
Due Date	11 October 2026
Project Type	Mandatory Real-World Project
Submission	Live Website Link + GitHub Repository + Screenshots

InternNova Official Homepage Redesign

Real-World Project: InternNova Official Homepage Redesign

Objective

Analyze the existing InternNova website and redesign the complete homepage with a modern, professional and user-friendly interface. This real-world project is designed to provide practical experience similar to working on an actual client or company website.

Task Requirements

- Visit and analyze the existing InternNova website before starting.
- Identify areas where the current UI/UX can be improved.
- Design the entire homepage, not just a single section.
- Create a modern and professional UI while maintaining InternNova's brand identity.
- Make the website fully responsive for desktop, tablet and mobile.
- Add smooth navigation, animations and interactive elements where appropriate.
- Ensure proper spacing, typography, buttons, cards and visual hierarchy.
- Use relevant and meaningful content related to InternNova.

Suggested Homepage Sections

- Navigation Bar
- Hero Section
- About InternNova
- Internship Programs
- Internship Domains
- Why Choose InternNova
- Learning & Mentorship
- Workshops

- Student/Intern Testimonials
- Statistics / Achievements
- FAQ
- Call-to-Action Section
- Footer

Important Instructions

Do not simply copy the existing InternNova website. Use the existing website only as a reference. Analyze it, identify opportunities for improvement, and create your own professional and creative redesign.

Selection Opportunity

The best designs may be shortlisted by InternNova for potential use or further development on the official website. This project can also be added to your portfolio as a real-world website redesign project.

Submission Checklist

1	Live Website Link	■
2	GitHub Repository Link	■
3	Screenshots of the Final Design	■

<https://internnova.co.in>

Project Goal

Build a polished, responsive and interactive InternNova homepage that demonstrates your understanding of JavaScript fundamentals, modern web design, UI/UX principles and practical frontend development.

Prepared as a Week 4 Web Development Internship Assignment
